Both sections 219 and 221 can be made use of, if it is the opinion of govt, that the proposed work is necessary for the health or safety of the public. Whether the proposal of the Race club is for the execution of such a work is a point which can be considered when the plans etc are received back from the Mc Comr to whom they have been sent in the Circle's file for opinion of the municipality. The President thanked the Councillors for the kind sentiments expressed by the members towards himself and said that their term of office may be considered as a red letter day in the annals of the Municipal Council since many unique events such as laying the foundation stones of the Town Hall and the Municipal Offices and turning on the New Water Supply from Thippagondanahalli into service by His Highness the Maharaja of Mysore and the recent visit of His Excellency the Viceroy of India and Lady Willingdon had taken place. He said that there was no difference between the elected and nominated Councillors and all were equally interested in the welfate of the citizens. and the Executive. The Commissioner was very enthusiastic in improving the City and many improvements had been effected with the limited finances at their disposal. He was glad that the underground drainage scheme which was pending from a very long time was launched and the question of Housing the Poor and Clearing the Slum Areas had been earnestly taken up. He once again thanked the Commissioner, the Health Officer and the Municipal Engineer and the Office staff who co-operated with him to a very great extent in the discharge of his duties. He begged that he may be excused if he had consciously or unconsciously wounded the feelings of any of the Members by his rulings while conducting the deliberations of the Council. He concluded his remarks with the hope that the New Council would be able to sit and conduct their deliberations in the New Municipal Offices, very early.

The Municipal Commissioner thanked the President and the Councillors for appreciating the work that he had been able to do and said that he considered his duty always to place the best interests of the City above all other things and what had been so far achieved was due to the co-operation and the harmonious relationship that existed between the President and the Council and the Executive who were all working towards one common end, viz., the interest of the City. He hoped to serve the City for some time more and be of some service in pushing through some of the schemes which had been initiated.
